Course Description
This course is intended to provide students with the knowledge of interior design concepts and methods related to the residential environment.

Prerequisites
Courses: ID. 05, ID. 10, ID. 15, ID. 20, ID. 25, ID. 30, ID. 75, or equivalent.
General: Proficiency in reading, writing, and general mathematics.

Texts
Required: Interior Design; Pile
Accessible Housing Design File; Mace
Recommended: Interior Graphic and Design Standards; Reznikoff

Course Content
In the framework of this course, the student will analyze existing interior spaces and design residential environments by participating in four projects. The student will demonstrate his/her ability to produce drawings showing design solutions based on a given program. The student will further develop 3-dimensional studies, lettering and graphic presentation techniques, create conceptual designs and programs, and develop plans, elevations, and furniture/finish specifications. Students will continue to develop their professionalism by providing oral presentations for each project.

Your grade will be determined on a 1000 point scale:
Mini-assignments (4 total) 75  A = 900-1000
Design Exercise 25  B = 800-899
Artist Biography 50  C = 700-799
Projects A, B, C 300  D = 600-699
3-D Study Model 150  F = Below 600
Final Project 350
Final 50
Total points 1000

Grading Criteria
Your assignments in this class are subjective, making it difficult for you to determine how a grade was given! I grade using a fair/good/superior performance standard consistent with professional expectations in the business world. If you are receiving an "A", you are working to the highest professional standards, meaning your work would be recognized as professional quality in the design field.

All assignments are due THE FIRST 15 MINUTES OF CLASS. 10% of the assignment will be deducted for late assignments and will only be accepted within one week of the due date. If you are going to be absent, it is your responsibility to get your assignment in on time - there is a drop-off box in the AAS office.

Final Projects
The final project and presentations occur over a 3-day period due to the size of the class. Please note that ALL PROJECTS are due on the first day. (This includes the final plan set, all presentation boards, and the specification binder). Failure to turn in any of these materials on the due date results in a late grade.

Final presentations are given on a random basis. If you are not ready to present when your name is called, you will not be allowed to present at a later time. In other words...COME PREPARED. This policy is not negotiable!

Students with Disabilities
West Valley College makes reasonable accomodations for persons with documented disabilities. If you believe you have a disability requiring accomodation, please contact DESP in the Learning Services Building (408) 741-2010 or (408) 741-2658 TTY. I will make every effort to assist in your learning environment.
